Subject: Help a Child in Bangladesh and Change a Life.

Dear Friend:

The challenges faced by underprivileged children around the globe are enormous. Every three seconds a child dies as a result of extreme poverty; and just to survive so many others are forced to work in unspeakable conditions: there are 250 million child laborers worldwide. At **Distressed Children International (DCI)**, we believe that every child deserves a life of dignity and hope. DCI is a non-profit child rights organization dedicated to helping impoverished children by providing them basic life necessities, as well as quality education and health care – with a special focus on preventing childhood blindness caused by cataracts (Childhood Blindness Prevention Program).

Our flagship program is the **Sun Child Sponsorship (SCS)**, which is designed to give some of the poorest and most vulnerable children in Bangladesh the opportunity to become independent, productive citizens. More than 800 Bangladeshi children are currently enrolled. To see how the SCS Program has changed these children's lives, please visit our website: <http://www.distressedchildren.org> and, under **Downloads**, click on **Sun Child Sponsorship Program Overview**. We have also attached the **SCS Program Brochure**. (All of your contributions are tax deductible. **(IRS Tax ID# 810671495)**.)

Countless more children desperately need our support. Please help us help them. Join us in giving these children the bright future they deserve by sponsoring a child and/or donating today. The work we do at DCI is made possible by the generosity of compassionate people like you. Please remember – you have the power to change a child's life. Thank you so much for your consideration.

With Kindest Regards,

Brian M. DeBroff, *M.D., F.A.C.S.*,
President, DCI, Inc.
